The Canadian Winter School is a rich and unique opportunity to foster interprofessional collaborative relationships and embrace new knowledge, while advancing our continuing education and professional development goals. This year's School will be held virtually, from February 1st to 3rd, 2022. The theme of the 2022 Winter School is: Career Development - The Science, The Strategies, The Practice

As an industry partner, the Winter School gives you exposure to participants from three associations: the Canadian Organization of Medical Physicists, the Canadian Association of Radiation Oncology and the Canadian Association of Medical Radiation Technologists. The Winter School provides you with a unique opportunity to:

- Develop relationships and position your brand and products with key decision-makers
- Increase your company's visibility and image
- Learn about emerging issues in the oncology community in Canada and beyond

The virtual format of the meeting provides you with unique opportunities to share your message depending on the level of sponsorship. We are committed to a mutually beneficial relationship with our industry partners. Please contact Erika Brown, Deputy Executive Director of COMP to discuss how we can best work with you to ensure that you meet your objectives.
